Participation of Dickinson ISD students in Collegiate High School continues to increase each year. Students' complete courses at College of the Mainland that meet high school requirements and earn college credit at the same time. Many of our students graduate with an Associate of Arts degree before they receive their high school diploma. Collegiate High School provides our students with the challenge of college-level work, and it provides guidance and support to help students transition to college life. In addition, students and parents save a substantial amount of money on tuition because of our partnership with College of the Mainland.
